Samantha M. Turbeville

Ph.D. Candidate • Department of Atmospheric Sciences, University of Washington
✉ smturbeville@gmail.com • (808)269-8303 • smturbev

Education

Ph.D., Atmospheric Sciences with a Data Science focus — Expected Aug 2024
University of Washington | Seattle, WA
Advisors: Thomas Ackerman and Chris Bretherton

M.S., Atmospheric Sciences — Jun 2021
University of Washington | Seattle, WA
Advisors: Thomas Ackerman and Chris Bretherton

B.A., Mathematical Sciences with minors in Physics and Art — May 2018
Colby College | Waterville, ME

Research Projects

- **Quantify model biases from ice cloud microphysics** 2023 – Present
  Using a small domain doubly-period simple cloud resolving E3SM atmosphere model (SCREAM) with P3 microphysics to quantify the sensitivity of modeled clouds to ice sedimentation, vapor deposition, large scale ascent, and changing SSTs.
- **Tropical convection and tropopause layer cirrus in global storm-resolving models** 2022 – Present
  Tropical analysis of convection and cirrus clouds in models that participated in the second phase of the DYAMOND project. Regional comparison of models that participated in both phases of DYAMOND.
- **Model intercomparison of global storm-resolving models** 2019 – 2022
  Diagnosing model biases in regions of active tropical convection by analyzing of top of atmosphere radiative fluxes and vertical cloud structure in models that participated in the first phase of DYAMOND.

  - Nugent, J. M., **Turbeville**, S. M., Bretherton, C. S., Blossey, P. N., & Ackerman, T. P. (2022). Tropical cirrus in global storm-resolving models: 1. Role of deep convection. *Earth and Space Science*, 9, e2021EA001965. DOI:10.1029/2021EA001965

Fellowships & Awards

AMS Annual Meeting 2024 Student Poster Presentation Award — 2024
ARCS Foundation Fellow, University of Washington — 2018 – 2021
GSEE formerly GO-MAP Fellow, University of Washington — 2018 – 2020
Sigma Pi Sigma, Colby College — 2018
Ralph Bunche Scholar, Colby Collee — 2014 – 2018

Service

Mentorship | Department of Atmospheric Sciences, University of Washington

- Graduate Peer Mentorship Group 2022 – Present
- Graduate-Undergraduate Mentorship Program Mentor 2019 – 2021
- Summer Intern Mentor 2020

Student member | AMS Cloud Physics Committee 2022 – 2024

- Helped organize and co-lead a session at AMS Cloud Physics conference 2023

Student leader | NSF-PIRE Cirrus Journal Club 2020 – 2024

- Helped organize annual meetings and monthly seminars for early career scientists and students
- Hosted a seminar speaker at University of Washington Sep 2023

Student organizer | Department of Atmospheric Sciences, University of Washington

- Department intramural coordinator 2019 – 2023
- Python club organizer 2019 – 2022

Teaching Experience

Teaching Assistant | Department of Atmospheric Sciences, University of Washington

- Global Warming (100-level class) 2020 & 2024

Teaching Assistant | Department of Mathematics, Colby College

- Mathematical Reasoning (200-level class) 2016 – 2017
- Ordinary Differential Equations (300-level class) 2017 – 2018

Conferences

Talks & presentations:

- AMS Annual Meeting 2024
- PIRE Cirrus Annual Workshop 2018, 2019, 2020, 2021, 2023
- Cloud Feedback Model Intercomparison Project (CFMIP) 2023
- AMS Collective Madison Meeting – Clouds Physics 2022
- Pan-GASS Meeting 2022
- University of Washington seminar 2021 (MS defense)
